[03] // what we build · dashboards & analytics

Numbers people trust, reconciled to source._

Dashboards built around the decisions your leaders make, on agreed definitions, with every headline number checked against your systems.

sound familiar?

> “Month-end takes five days of copy-paste.”

> “The board pack is out of date by the meeting.”

> “Every manager has their own version.”

what we do

+ Start from the decisions and the questions behind them
+ Agree metric definitions with their owners
+ Design pages for each audience
+ Build on a reliable data model
+ Reconcile every headline number

what you get

✓ Live dashboards with agreed definitions
✓ A metric glossary everyone can read
✓ Scheduled refresh and email snapshots
✓ Access by role or department where needed
✓ Training for viewers and builders

how it runs

01 questions	02 wireframe	03 build	04 reconcile
decisions, metrics	agree the pages	weekly demos	sign-off, training

Usually 2–6 weeks, depending on sources. Weekly demos, docs and training are standard.

a good fit if

→ The same numbers are rebuilt by hand each month
→ Leaders want one view of the business
→ You pay for BI licences nobody uses well

works with

Power BI, Looker Studio, Tableau, Metabase, or what you already licence.

Vendor-neutral: we recommend what fits, not what we resell. PDPA designed in from kickoff.

Start with a free 30-minute fit check.

Pricing is scoped after the fit check, in writing, before any work starts.
