[R] // run · managed support

Live systems, looked after._

A monthly retainer that keeps your pipelines, dashboards and tools healthy, whoever built them, with agreed response times.

sound familiar?

> “The person who built it has left.”

> “A pipeline broke and nobody noticed for a week.”

> “Small changes wait months.”

what we do

+ Monitor pipelines, refreshes and usage
+ Fix issues within agreed response times
+ Make small changes and improvements
+ Keep documentation up to date
+ Review the roadmap with you each quarter

what you get

✓ A monthly support report
✓ Agreed response times by priority
✓ A set number of support hours each month
✓ First call on new work
✓ Three tiers: Essential, Standard, Priority

how it runs

01 onboard	02 monitor	03 fix & improve	04 report
review, access	daily checks	within SLA	monthly

Monthly, minimum three months.

a good fit if

→ You have gone live and want peace of mind
→ There is no in-house data team
→ Systems built by us or by others

works with

Works with the stack you have. We take over other vendors' builds after a short review.

Vendor-neutral: we recommend what fits, not what we resell. PDPA designed in from kickoff.

Start with a free 30-minute fit check.

Pricing is scoped after the fit check, in writing, before any work starts.
